REMARKS.

Though there have been many discouragements during the past year, as heretofore, arising from the want of school room, we have been able to overcome them in a great measure, and to keep the schools up to the high standard which has characterized them under our graded system. Finding the High School Building at the commencement of the last school year absolutely too small to accommodate the increased number of pupils, and being obliged to add another school, we were fortunate in finding a room in "The Tubbs Block," so called, now owned by Mr. L. S. Barrett, and this room, engaged at a rental of \$100 per annum, and fitted up from seats and furniture belonging to the town, taken from other rooms where they could be temporarily spared, has made a good and convenient place for the 1st Primary Grade and relieved the main building, for a time at least, from its overcrowded condition, but the fact still remains that there is great need of a more commodious building, and we earnestly hope that with the growth of the school and the increasing demand for a higher and better education, there will come a public sentiment that will arouse all our people to action and provide such a building and locality, as will not only be a blessing to our now recognized excellent school, but be an ornament to our beautiful village beneath the shadow of these grandly majestic and world-renowned mountains. A furnace placed beneath the present building, if we cannot have a new one before long, would be a great saving in fuel and give a little more room, in place of the large stoves now compelled to be used. We commend both these suggestions to the good sense of our school loving people, in the hope that something may be done to relieve the present pressing wants.

A much larger class than usual is to graduate at the close of the present school year in June, and great interest is felt, as usual, in this interesting event. We have already sent out from our High School some excellent teachers, and there has been no exception to the young men and women, in the truest sense, who thus far have left us at the graduation hall, to enter upon the great and responsible duties of life. We are proud of them all and have no doubt that they will equal

rs.

ry

-as, we cannot

There is another important thing which we desire to again impress upon the parents, and all those who are interested in this good work, and that is the visiting of the schools from time to time, and giving to both teachers and pupils the incentive of your good feelings toward them all, for their encouragement and aid. A few have given a little time to this during the past year and it has had its good and wholesome effect. Let this good work and duty increase, and if we cannot have the best school in the world, we can have the best of which we have any knowledge, the influence of which will go out like precious incense, in the sweet aroma of which we shall be known and ever respected for our good educational work.

We have a small debt remaining of \$190.00 and one year's interest, which should be provided for by vote in some way at the coming school meeting, as it cannot legally be paid from the school money, without authority, and as the balance now on hand is necessary for school purposes, we recommend that enough be raised to cancel this small debt.

Mrs. W. C. Libby,	} School Board.

CORRECTION.—The balance unexpended last report was an error and should have been \$299.37. This corrected gives \$70.00 more now on hand and unexpended, viz : \$199.94.

Though there have been many discouragements during the past year, as heretofore, arising from the want of school room, we have been able to overcome them in a great measure, and to keep the schools up to the high standard which has characterized them under our graded system. Finding the High School Building at the commencement of the last school year absolutely too small to accommodate the increased number of pupils, and being obliged to add another school, we were fortunate in finding a room in "The Tubbs Block," so called, now owned by Mr. L. S. Barrett, and this room, engaged at a rental of \$100 per annum, and fitted up from seats and furniture belonging to the town, taken from other rooms where they could be temporarily spared, has made a good and convenient place for the 1st Primary Grade and relieved the main building, for a time at least, from its overcrowded condition, but the fact still remains that there is great need of a more commodious building, and we earnestly hope that with the growth of the school and the increasing demand for a higher and better education, there will come a public sentiment that will arouse all our people to action and provide such a building and locality, as will not only be a blessing to our now recognized excellent school, but be an ornament to our beautiful village beneath the shadow of these grandly majestic and world-renowned mountains. A furnace placed beneath the present building, if we cannot have a new one before long, would be a great saving in fuel and give a little more room, in place of the large stoves now compelled to be used. We commend both these suggestions to the good sense of our school loving people, in the hope that something may be done to relieve the present pressing wants.

A much larger class than usual is to graduate at the close of the present school year in June, and great interest is felt, as usual, in this interesting event. We have already sent out from our High School some excellent teachers, and there has been no exception to the young men and women, in the truest sense, who thus far have left us at the graduation hall, to enter upon the great and responsible duties of life. We are proud of them all and have no fear but that those who follow them will equally merit our highest esteem.

That we have been so fortunate, from the beginning, in our teachers, is also a matter of great rejoicing, for good teachers do not come at every call, and without good ones, especially in a school like ours, we cannot expect good results.

There is another important thing which we desire to again impress upon the parents, and all those who are interested in this good work, and that is the visiting of the schools from time to time, and giving to both teachers and pupils the incentive of your good feelings toward them all, for their encouragement and aid. A few have given a little time to this during the past year and it has had its good and wholesome effect. Let this good work and duty increase, and if we cannot have the best school in the world, we can have the best of which we have any knowledge, the influence of which will go out like precious incense, in the sweet aroma of which we shall be known and ever respected for our good educational work.

We have a small debt remaining of \$190.00 and one year's interest, which should be provided for by vote in some way at the coming school meeting, as it cannot legally be paid from the school money, without authority, and as the balance now on hand is necessary for school purposes, we recommend that enough be raised to cancel this small debt.
